"Eyes of Love"

"Eyes of Love," a 3-act comedy-drama at the Opera House, Friday, March 27, is a thrilling story of a father's love and a daughter's loyalty and devotion under very adverse circumstances.

You will laugh with tears in your eyes! You will wait in suspense to learn the fate of the bighearted unfortunate Trusty Jim, the man of mystery! Thrills, tears and laughter—but you'll enjoy it all.

Mr. Ford has kindly consented to have the School Orchestra render selections before and between acts, so you are assured of a full evening's entertainment. Come and support your own local talent.

The play is under the auspices of Knox United Ladies Aid.

Following is the cast:

Mrs. Barry..... Mrs. D. Edwards
Judge Barry..... Al Thomas
Gaylin, their adopted daughter..... Dorothy Ranton
Royal Manton, Gaylin's lover..... Ward Wyman
Reita, a treacherous cousin..... Elsie Goertz
Burt, Gaylin's unfavored suitor..... John Goertz
Carolina, negro mammy..... Ruth Johnston
Lora, pert housemaid..... Mrs. W. McCoy
Clarke, the butler (a detective)..... Jim Halton
Trusty Jim, the man of mystery..... Dave Jenkins

WEEKLY SERMONETTE

"Every thought you entertain is a force that goes out—and every thought comes back laden with its kind. This is an immutable law."

Work Boots For Spring

Mountain View M.D. Organizing Meeting

The organizing meeting of the Mountain View municipal district was held at Olds on Friday last, with all councillors present.

Councillor Percy Saunders was elected Reeve for the ensuing year and Councillor J. A. Dodd was appointed Deputy Reeve. Representatives appointed to the Hospital Board were: Councillor J. W. and Mrs. Rupp (Didsbury); Councillor B. C. Trimble and Mrs. L. Hammer, Jr. (Olds). C. E. Reiber was appointed auditor. Reeve Saunders was appointed representative to the Hail Board.

A letter was read from the provincial government advising that legislation was being introduced to defer the assessment until 1937.

The matter of seed grain relief was discussed and the reeve, secretary and the councillor of the division were appointed a committee to deal with applications for seed grain.

It was pointed out that the government regulations require that a farmer making application for seed grain and who is a renter or a purchaser under an agreement of sale, must have a consent form signed by the registered owner of land, such form permitting an effective charge being placed against the land.

It was also pointed out that the percentage of seed that can be provided is as follows:

50 acres or less	100 per cent
50 to 100 acres	80 "
100 to 200 acres	75 "
200 to 300 acres	60 "
300 acres or over	50 "
—With a maximum of 300 acres to be seeded.	

The reeve and secretary were appointed a committee to make arrangements with the dealers at Didsbury, Olds and other points, as they see fit, whereby the municipality will pay for an equal amount of gopher poison as paid for by the farmer within the municipality, the arrangement to be in effect until June 1.

The rate of pay for councillors was fixed at \$4.00 per day and 10c per mile for both council meetings and supervision.

The rate of pay for work on the roads was fixed at: Single man 35c per hour; teamster 30c per hour; team 15c per hour; overseers and graders 45c per hour; farm tractor 15-30 h.p. \$1.50 per hour; larger tractors \$1.75 per hour.

A resolution was passed appointing each councillor a committee to take charge of cases of relief within his own division.

Several cases under the Farmers' Arrangements Act, which were coming up before the Board of Review, were discussed and the Secretary was appointed to represent the municipality before the Board.

A by-law was passed continuing the tax consolidation arrangements for 1936.

The same crew as last year for the tractor and grader were engaged: C. R. Moritz and D. Jenkins, tractor; and R. Dodd and L. Rear, grader.

A grant of \$200.00 was made to the Salvation Army for their social service work.

Westerdale M.D. Council Meeting

Reeve George Clark was re-elected reeve and Councillor Alex Hogg deputy reeve at the organizing meeting of Westerdale Council held in Didsbury on Friday.

The other appointments were: Hospital Board, Councillor and Mrs. Hogg (Didsbury); Reeve Clark and Mrs. Davidson (Olds). Auditor, C. E. Reiber. Weed Inspector, P. G. Johnston. Health Officers: Dr. Clarke, Didsbury and Dr. Mann, Olds. Councillor N. S. Clarke was appointed delegate to the meeting of the Hail Board.

A by-law was passed extending the period for tax consolidation during 1936.

A grant of \$200.00 was made to the Salvation Army social service department.

Seed grain relief was discussed and it was decided that no seed grain would be issued to any farmer who can possibly make his own arrangements for seed and that in no case would seed be furnished for more than 100 acres. It will also be necessary for every applicant for seed to have the consent of the registered owner of the land.

The reeve, secretary, and the councillor of the division were appointed a committee to handle seed grain applications.

It was decided that gopher poison would be furnished on the same terms as last year, the municipality furnishing an equal amount to that furnished by the farmer.

The tax rate for municipal purposes was set at 10 mills.

Dealing with relief cases and the passing of accounts comprised the balance of business of the meeting.

St. Patrick's Supper.

The United Church Choir is holding a supper in the basement of the church this Saturday, March 21st, from 5:30 to 8 p.m. The proceeds will be used to provide choir gowns. Everybody 25c. Bring the whole family and help this worthy cause.

M.V.B.S. Closing Exercises & M.B.C. Conference Week

Following is the program of the Mountain View Bible School closing exercises and the M.B.C. conference week, which will be held from Tuesday, March 24 to Monday, March 30 inclusive, at the M.B.C. Church.

Tuesday, March 24 10 a.m.—Sunday School Convention. Afternoon session at 1:30. Evangelistic service in the evening.

Wednesday, March 25 9 a.m.—Conference convenes. Evangelistic service in the evening at 8.

Thursday, March 26 9 a.m.—Conference Session. Evangelistic service in the evening at 8.

Friday, March 27 9 a.m.—Conference Session. Bible School Senior Night at 8.

Saturday, March 28 9 a.m.—Conference Session.

Sunday, March 29 10 a.m.—Conference Session and Ordinances. 3 p.m.—Baccalaureate Service. Address by Rev. J. R. Geeson.

Monday, March 30 9 a.m.—Meeting of the Board of Directors of Mountain View Bible School at the school.

8 p.m.—Bible School Commencement Exercises. Address by Rev. H. D. Marr.

St. Patrick's Dance under the auspices of the Oddfellows, this Friday evening.

Consider Paving 1,000 Miles of Road

A five year plan which will involve the hard surfacing of 1,000 miles of main highways in the province and grading and graveling of an unestimated number of miles of market roads is under consideration by the provincial government at present, and actual work is expected to be under way by June of this year, Hon. W. A. Fallow, minister of public works, announced Monday morning.

Asked if the province was contemplating a tie-up with the major oil companies in the financing of the roads program, as had been reported in some quarters, Mr. Fallow said that while the government had been approached in this connection, the five year plan would be carried out as a straight government scheme, unless an unexpected hitch developed.

Safeguarding Democracy

"If our democracy is to survive, the whole voting public must be educated, so as to use the rational, scientific mode of approach to all our problems, instead of the emotional, superstitious and 'hunch' mode of approach."

When Dr. Robert Millikin, eminent American physicist and scientist, made this statement recently in a letter read at a congress of the American Institute in New York, he said a great deal in a few words, and while, no doubt, he had social and economic problems as they exist in the United States in mind nevertheless the philosophy contained in his words is equally sound and applicable when considered in the light of the problems and conditions which confront the people of this country.

For no matter what problems exist, and without any limitation of their geographic or ethnologic application, it is axiomatic that they cannot be solved satisfactorily unless the ray of clear reason and logic is focussed upon them rather than a diffused floodlight of passion and emotion. In other words, it is only after the problems which cry aloud for solution have been placed under the microscope and subjected to scientific analysis to determine what they are made of, that it is possible to prescribe an effective cure.

If, on the other hand, people allow their emotions to run away with sober reflection and sound judgment, no matter how laudable those emotions may be, no matter how fine even the impelling motives, it is a sine qua non, that the conclusion reached will nine times out of ten be wrong and the goal to be achieved further removed and subsequently more difficult to attain. For misdirected effort surely leads to more complicated and most undesirable consequences.

In their turn undesirable consequences can do nothing but promote unrest, dissatisfaction and despair, and when these moods have been induced people are apt to turn to anything that offers in the hope of finding relief, even to the extent of surrendering liberties which have been bought at great cost.

All this, no doubt, Dr. Millikin had back of his mind when he wrote his dictum that the existence of democracy is threatened for the peoples who fail to apply science and reason to the solution of their problems.

This does not by any means contradict the assertion that sentiment and emotion have their part in determining the destinies of individuals and nations. Indeed, not only have they a part to play, but without these forces the world would be a sorry sphere, but they require as a governor, rational thinking and logical decisions, so that they may be directed along right and useful channels.

Once rationalism has pointed the way to the solution of the problems which vex the soul, then is the time to call into play the finer emotions of burning zeal and enthusiasm to enkindle others, and it is a safe assumption that causes lighted from the beacon of incontrovertible fact and entrenched wisdom are those which will ultimately prevail in the minds and hearts of the multitude.

The people of Western Canada have at times been accused of being too easily swayed by popular and ephemeral concepts and of swinging to extremes. If there is any truth to the accusation, it is equally true that they are not more prone to do so than the peoples of other lands. For proof, it is only necessary to take note of what is happening in other countries.

Moreover, if at times, the citizens of this country, display an occasional tendency to soar to impractical heights, as they do in other countries it is noticeable that free ventilation and discussion eventually slows down the pendulum to a point where questions can be considered rationally, a tribute to the value of free thought and free speech, rightly regarded as the bulwarks of democracy.

And in this connection it is interesting to note that Dr. Millikin also stated that he regarded the newspapers as "on the whole the most effective adult educational influence in this country," coupling this with his comment on the necessity of resorting to reason if democracy is to survive.

This statement needs very little amplification, for it is universally recognized that the newspapers of this country devote a great deal of space to the publication of discussions by authorities and others on important social and economic problems and also to announcements of discoveries of value to mankind generally.

Power Of The Moon

We are of the opinion says the Mayfield, Kentucky, Messenger, that the sun and the moon and other bodies in our ethereal universe do have some control over things on earth, and even on human beings. If the moon can control as big a thing as the Pacific or Atlantic oceans, surely it could have some effect on a crop of potatoes, or corn, or even a human being.

By Way Of Contrast

Of George V. it can be said that he died in peace, loved by his people. A king, says the New York Post, could ask no higher praise in an age that has seen three emperors dethroned, several kings assassinated or exiled and dictators ruling by terror—the dictators themselves terrorized by fear of what their subjects would do to them if they ever got the chance.

Believed Link With Hittites

Relic Found In 4,000-Year-Old Tomb In Asia Minor

What is believed to be the first step toward the discovery of the lost Hittites, who appear in the Bible as a great Imperial power, has just been found in Asia Minor. In a 4,000-year-old tomb was discovered a Hittite statue of a bull, seven inches high and inlaid with gold. The silver smith's art is astonishingly modern, and indicates that the race was cultured rather than primitive as previously believed. The discovery has aroused great interest among European archaeologists because previously nothing had been known of the Hittites' work except rock carving and a few potsherds. The relic was exhibited recently in London.

A Rare Operation

Blood Sponged From Patient's Lung Used For Transfusion

A rare operation in which the victim of a stab wound in the heart was saved by his own blood was reported in the Journal of the American Medical Association. The blood was sponged from the victim's lung cavity, and was then injected into his veins in a manner similar to the usual transfusion. Two Pittsburgh physicians, who described the case for the Journal—Dr. Charles M. Watson and Dr. James R. Watson—said it was the first of its kind in medical annals.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. See.

An Unusual Problem

Man In Bohemia Must Prove He Is Alive

Unless Robert Guenzi of Zatec, Bohemia, can prove he is alive, his "widow" must pay death taxes on her "late" husband's estate. When Mrs. Guenzi received the demand for the death duties Guenzi went to the tax office and protested that he was alive. The officials agreed that there must have been some error in their records, but pointed out that they were in no position to make the necessary correction unless Guenzi could produce a certificate proving that he really was alive. The fact that the parish church at which Guenzi was baptized and married did not mention his death in its register was not accepted as proof that he was living.

Declaration In Autumn

King Will Take Oath To Maintain Protestant Religion

The king is expected to subscribe to the accession declaration in the autumn. This oath ensuring the maintenance of the Protestant religion by the crown, must be made by the sovereign on the day of the meeting of the first parliament after accession or at the coronation, whichever comes first. Before the coronation parliament will probably enter the new session. Therefore the declaration will be "made, subscribed and audibly repeated" by the king at the opening of the new session.

Lasts For A Lifetime

New Lead Pencil Requires No Sharpening Or Refills

Perhaps it was years of experience in the school room that inspired Wynn E. Eisenhauer of Halifax to invent a lead pencil that can be used a lifetime without refills or sharpening. Eisenhauer, secretary of the Maritime Teachers' Bureau, has constructed just such a pencil and it is the basis of a patent issued by the United States patent office at Washington.

It is estimated that there are approximately 20,000 Mohammedans in North America. 2139

SELECTED RECIPES

DINNER ROLLS

- 2 cups Basic Sponge
- ½ teaspoon salt
- 1 tablespoon sugar
- 4 tablespoons melted shortening
- 1 egg well beaten
- 4 cups flour (approx.)
- 1 cup milk

To the Basic Sponge, add salt, sugar shortening, milk and egg. Stir well and add flour enough to knead smooth. Cover well and allow to stand in warm place until double in bulk (about 1½ hours). Knead and form into rolls. Place apart on greased pan and allow to rise until double in bulk. Bake in hot oven for about 25 minutes.

Highway Crossing Accidents

Collisions Between Automobiles And Trains Show Increase

Accidents at highway crossings in 1935 involving collision between motor vehicles and trains totalled 213 compared with 182 for 1934, a report of the board of railway commissioners announced.

Of the 1935 figures, 61 accidents were instances in which motor vehicles ran into sides of trains, involving 13 persons killed and 90 injured, compared with 55 accidents of a like nature in 1934 in which seven were killed and 76 injured.

Will Study Rheumatism

Dr. A. A. Fletcher of Toronto was elected president of a national society for study and control of rheumatism constituted at Ottawa at a meeting of physicians from many parts of the country. Dr. Frederick Cadman, Manitoba bacteriologist, was named second vice-president.

Artificial lemon oil is on the market.

Small Military Force

The smallest British military force in the world is located on the Pacific islands of Gilbert and Ellice. The Ocean Island Defence, as it is known, consists of one officer and 20 "other ranks".

RHEUMATISM DRIVEN OUT!

It should be realized Rheumatism is not inevitable if the poisonous acid fluids of the system are kept on the move, thus preventing the formation and deposit of painful crystals in the joints.

The solvent stimulating action of Phosferine has a masterly effect in liquefying, dispersing and expelling the harmful acid crystals, and it recharges the tortured and exhausted nerve centres with the energy to restore easy movement to the stiffened joints, and suppleness to pain rigid muscles.

This exclusive property of Phosferine is illustrated by the recent experience of Mrs. E. Brewster, who writes: "For months my husband was in terrible pain with Rheumatism in his feet, walking with agony, until he tried Phosferine, and now all his Rheumatic pain has gone, and he says it is wonderful to walk without any pain." 6, Greek Street, Hull.

The speedy expulsion of Rheumatism is something to be thankful for—apart from the saving in time and money, for it means that Phosferine has revitalized the body cells, regulated the blood pressure, strengthened the stomach and circulation, and maintained perfect health and "many happy returns" of Activity!

Evergreens Recommended As Best Shelter Belt For The Prairie Farm

Late winter is the ideal season for studying and planning farm home improvements, because it is possible to observe the outside features of the general layout and the effects of winter storms and drifting snow around the yard and farm buildings. At this time it is easier to discern the places in the general view most vulnerable to the weather which will suggest a plan for the proper disposition of shelter belts and windbreaks to minimize the discomforts associated with the long winter period.

From a protection standpoint, the broadleaf shelterbelt has its greatest value and serves a wider purpose during the full leaf period. Through the late fall and winter months, however, its protective influence is considerably reduced and there is need for a more substantial planting for winter effect. To this end a very effective barrier to winter weather may be provided by a judicious and careful planting of evergreens.

Two or three rows of these as a separate planting or to supplement the existing broadleaf belt will give considerably more winter comfort around the farm yard than several rows of broadleaf trees. In fact, they will form an impenetrable wall through which no wind can penetrate. When all other trees are bare and leafless, the evergreens stand out in bold pleasing relief, giving very substantial protection and a sense of home comfort around the place.

There are not enough evergreens on the farms of the West. Certainly, not as many as there would be if farmers only realized how well they can be grown and how valuable they are to the farm home site. For beauty and ornament there is really nothing that adds to the cheerfulness and comfort of the outside view in the winter months like a generous planting of evergreens. They have an all-year round freshness and in winter when there is no other green thing in sight the value of a good evergreen windbreak is considerable.

Evergreens to supplement existing broadleaf plantings are recommended for every farm. Once established they are more drought resistant than many of the broadleaf trees and they can be successfully grown on practically all types of soil, provided it is not too alkaline. While there are several dual purpose varieties suitable both for ornamental effect and general planting, the native white spruce and the introduced hardy strains of Scotch Pine are the most desirable for shelter belt purposes.

The opinion is often expressed that evergreens are too slow-growing and hard to start. Evergreens do grow slowly while young but when they have reached a height of three to four feet their growth is quite rapid and then from 12 to 24 inches of new growth yearly may be expected. They are not hard to start provided certain methods of handling are followed. The small fibrous roots are extremely sensitive to the least exposure to sun and air, and for this reason, both before packing for shipment and again just before planting, the roots should be immersed in a mixture of soupy mud to prevent any chance of drying out which would be fatal and which is probably one of the main causes of young evergreen failures. Then after planting, the trees will require some protection especially in soil drifting areas to prevent damage to the tender young needles by soil particles. In the early spring months young evergreens will undoubtedly suffer injury from sunscald due to sudden changes in day and night temperatures when warm days induce sap activity and cold nights or freezing temperatures rapture the leaf cells. A good snow cover will prevent this damage to a large extent but it is advisable to also place a winnow of straw or brush, a shingle or similar screen to provide shade on the south side of the trees. This is a very important procedure for at least two seasons after planting.

Cultivation during the growing season must be frequent, thorough,

and in all cases shallow. Evergreen roots are fairly close to the surface and deep cultivation will quickly destroy the fibrous feeding roots. Watering is not usually necessary except during very dry spells when a thorough soaking at intervals is preferable to frequent application of small quantities.

In addition to the possibility of sun scalding in the young growth stage, evergreens are often subject to rabbit injury. Fencing against this pest is not altogether practical on a large scale and is quite expensive. As a protection against both sun and rabbits the use of building paper or burlap, wrapped around the small trees in the late fall is recommended for the first three years. If there is a good snow cover, only the exposed growths will require this protection. This protection should, of course, be removed each year as soon as settled spring weather sets in.

More evergreens have died in drought years from the ravages of insect infestation than from actual lack of moisture. Trees that develop a sickly and discolored foliage appearance are in all probability the victims of insects. These insects and their control may be described as follows:

Spider Mite—Is very minute in size, forming a webbing among the spruce needles. Its presence is associated with a brownish discoloration of the needles, controlled by spraying about the middle of May first with a strong pressure of water to wash off the webbing, followed by a thorough spraying with an insecticide consisting of one pound dry lime sulphur to 18 gallons of water.

Pine Leaf Scale—Minute white scales common on the needles of Spruce and Pine. Larvae emerges about the first week in June and a spray of one pound dry lime sulphur to 18 gallons of water is effective at that time only.

Spruce Sawfly—Larvae a yellowish green with reddish brown head which appear about the second week in June and remain until about the middle of July. These larvae are very heavy feeders and a heavy infestation will quickly defoliate a tree. However, their depredations, if noticed in time are easily controlled by spraying with the following solution: Two pounds of lead arsenate and 1½ pounds of hydrated lime to 40 gallons of water.

The above are probably the most common and destructive insect enemies of Spruce and Pine occurring in the prairie provinces at the present time. Samples of shoots from trees suspected of infestation should be forwarded to the Entomological Laboratory at Indian Head, Sask., for proper identification and advice on control.

Has Few Chimneys

Honolulu Does Not Often Build Them On Houses

Because there are almost no chimneys in Honolulu, an intelligence test given school children recently proved to be not so intelligent. One of the exhibits was a house without a chimney. "What is wrong with this house?" was the question. Only one pupil answered correctly, and he was a boy from the mainland. Honolulu has fewer chimneys than any other city of equal size in the United States.

Rabbit Brought Luck

A piece of tin "mined" by a rabbit has brought luck to a prospector named Caldwell near Alice Springs, Northern Territory, Australia. While he was surveying the ground the rabbit threw up from its burrow a piece of tin the size of a table-tennis ball. As a result Caldwell is becoming comparatively wealthy.

All steel articles can be preserved from rust by putting a lump of fresh burnt lime in the drawer or case in which they are kept.

The best thing to do with a cold is take it home with you and put it to bed.

Sea Safer Than Highway

British Ships Lose One Passenger To 333 Killed By Cars

There have been few ocean voyagers, say, for example, between Montreal and Liverpool, who have not on reaching their destinations cabled back to the folks at home: "Arrived safe; all well."

But ocean travel has become so safe within recent years that this routine formula seems almost a waste of money. Not since the Norwegian collier Storstad rammed the C.P.R. liner Empress of Ireland nearly 22 years ago in the Gulf of St. Lawrence, has there been any passenger shipwreck on one of the busiest routes in the world. People get on the ships at Montreal or Liverpool and expect to reach the other side as a matter of course. And they do; but invariably they send cable messages saying they have arrived safely.

The British Chamber of Shipping in a recent statement on the safety of ocean travel points out that it is two and a half times as safe as before the war, due to better navigation instruments, greater precautions and better weather data.

The Chamber states that British ships are safer than those of any other nation, and that for every passenger life lost at sea 333 persons are killed on the highways in automobile accidents.

Our highways are much more dangerous than the highways of navigation. Yet nobody ever thinks of sending a telegram back home after a journey of 100 miles to say they arrived safe.

They should.

—St. Thomas Times-Journal.

Claim Baldness Inherited

Experts Give Report After Making Study Of Subject

Baldness is to a large extent due to whether or not a person's father or mother is bald, according to the finding of experts.

A study made by Ohio State University officials, reported in the magazine Human Biology, shows that baldness is transmitted from father to son.

"The sons of a bald woman will all be bald," is one of their findings. A woman never is bald unless her father was. When both parents are bald, the sons must all be bald, but some of the daughters may not develop baldness.

Baldness is more common in men than women and is generally transmitted directly from a father to half or more of his sons but only to an occasional daughter.

Frost on windows is no good sign that the air in a room is sufficiently moist.

Spain's attempt to make gasoline from grapes has failed.

Many Marvels In Plant Life That Scientific Theory Is Inadequate To Explain

Future Rests On Cooking

Urges Support Of Teaching Domestic Science In Schools

Canada's future rests on its cooking, Dr. C. T. Currelly, director of the Royal Ontario Museum of Archaeology said. He urged support of domestic science schools. "We are a nation of dyspeptics," he said. "Others will drive us out if they have more energy. If we do not encourage a better diet, we will not hold the country. Food is the basis of all work."

Dr. Currelly addressed the Ontario Vegetable Growers Association and corrected an impression gained from his speech that he declared women were lazy. He said women have to work just as hard these days as they ever did because in the old days women had more help.

A statement by Dr. C. T. Currelly that "women are growing so lazy they won't make the effort to cook the family meal," brought an irate answer from Miss Agnes Macphail, woman member of parliament from Grey-Bruce and authority on cookery.

"There is a tendency to neglect the cooking of vegetables because of sheer laziness," Dr. Currelly, Toronto archaeologist, said, adding women go to the corner store to buy prepared food and that the eating of the lazy forms of foods increased the danger of universal dyspepsia.

"Dr. Currelly sounds as if he was suffering from a bad attack of indigestion himself," Miss Macphail said. "Out our way most women cook two, three and even four varieties of vegetables for the midday meal in the summertime. A large salad is almost regulation menu for supper."

Canada's Furniture Industry

In Year 1934 Firms Produced Goods Worth \$17,159,000

The furniture industry of Canada produced \$17,159,000 worth of goods in 1934, according to Ottawa bureau of statistics figures. While there are 401 furniture makers in business in Canada, most of them are located in southwestern Ontario. Saskatchewan is listed with only one manufacturer in this line of business. The figures show Canadians demand more bedroom than dining room furniture, the production of the former being \$3,316,787 compared with \$1,693,718 for the latter.

The Transvaal is trying to stop competition between dog and horse race tracks.

Mammy Motifs Trim Small Linens

Household Arts by Alice Brooks

Colorful Cross Stitch That Goes Quickly

PATTERN 5356

Want to insure a gay, light-hearted breakfast-time? Then decorate your breakfast-nook and curtains with these amusing Mammy motifs, if you'd see smiles take the place of blues. Easy and quick to do in five-to-the-inch cross stitch, the motifs are best done in gay colors, on breakfast cloth and napkins, curtains, pillow, scarf or tea cloth. It's fun, too, to match them up with the companion Mammy towels, pattern 5250.

In pattern 5356 you will find a transfer pattern of four motifs averaging 6½ x 8 inches, two motifs 3½ x 5½ inches, two motifs 3½ x 4½ inches, and four motifs 1½ x 2 inches; color suggestions; illustrations of all stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

There is no Alice Brooks pattern book published

In recent years some scientists have arrived at the conclusion that plants feel somewhat the same way that animals do. Gardeners, who know how some ferns are affected when some one brushes against them, will approve this decision. The old saying that flowers grow better in the garden of one who loves them has a basis in fact. Now the botanists are asking themselves, do plants think? According to an article by Dr. Raoul France, in the Pester Lloyd, of Budapest, reproduced in the Magazine Digest, there is evidence to conclude that they do.

In the article mentioned reference is made to a eucalyptus tree whose roots spread over an area fifty feet square. The roots of the eucalyptus seek whatever water course there is adjacent, and in the case cited the roots were barred by a wall that ran beside the canal. But this did not baffle the tree. One of its roots grew out of the ground and up the wall to a hole a few inches from the ground, went through it, down the other side into the ground and so made its way back to the brink of the canal. Did the tree do this blindly, or did it have some sense that instructed it that through the hole in the wall it could reach the needed water?

The extraordinary way in which plants grow has engaged the correspondence columns of John o' London's Weekly for many months. The readers of this periodical have been supplying the curious with accounts of the unusual ways in which plants act, when faced with problems which must be solved if they are to continue to exist. One correspondent mentions a case that has a similarity to that of the eucalyptus tree. In a cave in the Midlands he saw the white roots of a tree, about 12 feet or 14 feet high, dangling from the top soil of the roof of the cave to reach the water at the floor. "How," he asked, "did these trees know the moisture was there so far below?"

People who have clipped hedges must have often come across an example of a plant's fight for life, similar to that recounted by another correspondent. At the bottom of his garden was an old-established privet hedge eight feet high and two and one-half feet through. One day, when he was about to trim it, he noticed a thistle bloom eighteen inches from the top of the hedge. He traced downward to the ground the stem of the thistle, "a mere smooth, green tube without trace of leaf or side-shoot. Not to be denied a 'place in the sun' it had patiently pushed its 'pipe line' upwards for some eight feet, and having reached air and light, had resumed all its thistle characteristics, still nourished through its 'pipe line.' The writer observes: 'Surely it needs very little imagination to see some element of 'thought' on the plant's part in adopting such an expedient in unfavorable circumstances.'

Space forbids the citation of any more of these interesting observations of plant life. But there is one fact about which the lawn owner may ponder. How is it that on a lawn dandelions and other weeds grow leaves that lie flat on the ground, while in the flower bed these same weeds thrust their leaves upward. Do the weeds anticipate the attention of the lawn mower? Whatever the answer, the facts demonstrate that in plant life there are marvels which recognized scientific theory is inadequate to explain.

Singing And Talking

Many Opera Stars Should Never Talk Over Radio

Some of the gravest offenders against good taste in enunciation are stars of the Metropolitan Opera Company, both men and women, who, in their own interests, ought never to be heard over the radio except when singing, because their speaking voices lower them in the public esteem. This is a problem that broadcasting has developed, that of the "awfulness" of the voice in so many instances, a something that is not enhancing the popularity of the radio.—Victoria Colonist.

Items of Interest

At Lacombe:

Ideal weather and the new pavilion for sales resulted in a record crowd of over 1,000 persons attending the 12th annual horse sale. Sales of 308 horses brought \$25,810, an average of \$83, making a new high since the year 1928, when the average figure was \$86. Last year 366 horses averaged \$88.

Census-taking in Western Canada within the course of a few months will be in full swing. Mr. A. C. Bury, of Olds, was appointed the official census commissioner for the Red Deer constituency.

The province of Alberta a year ago borrowed from the Dominion government \$3,858,000 for one year to be used for purposes of relief. It is unable to meet the obligation which matures on March 30. In consequence, an order-in-council was passed Monday extending the loan for one year at 4 per cent. The security is provincial treasury bills.

Four-year-old Vivian John Ranger, son of Mrs. John Ranger, was drowned when he fell through a water hole at 6 o'clock, Sunday evening, on the farm occupied by his parents, 7 miles northwest of Bottrel west of Crossfield.

SOCIAL CREDIT NOTES.

A week last Tuesday, under the auspices of the Didsbury Central Social Credit Council, Mr. C. M. Wilmott, of Calgary, known as the "Man from Mars," assisted by Mr. Baldwin, of Balzac, gave the people of Didsbury and district a very interesting illustrated lecture on social credit at the Opera House, and in spite of the bad roads there was a large audience. Mr. Wilmott outlined the inefficiency of the present financial system to distribute the goods and showed how, with social credit, the people would absorb the goods on hand. After the meeting Messrs. Wilmott and Baldwin were the guests of Mr. and Mrs. A. Schweisinger.

Knox United Church Notes.

Services next Sunday will be as follows: Westcott 11 a.m. Westerdale (to be arranged) at 3 p.m. and town at 7:30. The sermon theme is entitled, "The Unknown God." A most cordial invitation is given to all.

It is with pleasure that we note the appeal of the Premier of Alberta to the citizens to observe Sunday, March 29 as a "Go-to-Church" Sunday. Knox United Church is glad to co-operate and a special sermon will be prepared for the occasion. "Where there is no vision the people perish," was proclaimed by one of the great prophets of Israel, and that is true also for today. We earnestly support the Hon. Mr. Aberhart's request and we hope that the churches of the town will have exceptionally large congregations on the 29th.

The Ladies Aid will meet at the home of Mrs. Ranton on Thursday, Mar. 26 at 3 p.m. instead of Apr. 2. [Please note change of date].

Weekly News Letter

from Edmonton.
By T. B. WINDROSS

EDMONTON—(Press Gallery)— Among a number of minor happenings three outstanding events feature the news of the past week in the Alberta legislature: introduction of the promised Recall bill, publication of the government's Master Code by Hon. E. C. Manning, minister of trade and commerce, and the continued uncertainty regarding results of the Aberhart-Douglas correspondence.

Since the Recall bill made its appearance, following its introduction by Mr. Manning on Friday, there has been considerable criticism of its terms in opposition quarters as well as among the public generally, although this criticism has not been in any sense a reality among supporters of the administration in the assembly.

The chief objection to the act is its provision for a two thirds majority of electors' names legally on the petition for recall before it can become effective. That clause, opponents say, makes the whole act ineffective, especially in ridings where there are two or more members elected.

In defence of the bill it is pointed out by Social Crediters that to make the recall of a member too easy would give a measure of instability to the legislature that would be fatal. Recall action could be taken on any frivolous grounds, and there would be no end to trouble under a law that made it possible for a comparatively small number of disgruntled electors to institute recall proceedings on insignificant or purely party grounds.

The general master code, which was released Friday by Mr. Manning, is a document of far-reaching importance to the people of Alberta. It has aroused wide interest both within and without the province. Fixing of maximum and minimum prices is provided for in the code, which is binding on all classes of retail trade in Alberta, under the Trade and Industry act, and it will become effective on April 1, this year.

Mr. Manning said regulations under the code will provide for a licensing fee of not more than \$2 with \$1 for each additional licence. No additional licence will be required in a community where there are only general stores. A general store licence will cover all classifications of merchandise.

Mr. Manning explains the spirit of the code is to establish fundamental principles in business, fair alike to buyer and seller. It provides for fair competition in business. There are 43 general classifications of business in the master code.

The situation with regard to Major C. H. Douglas and the premier of Alberta has stirred up widespread interest and comment on both sides of the Atlantic ocean. The present status of the discussions is not altogether to the advantage of the London economist. There is a growing impression in Edmonton as well as abroad that Douglas is hedging on his proposals. Certainly he has no complaint against the Alberta social credit government that will stand the light of investigation for long. Premier Aberhart has established his reputation as one of the most patient politicians on record as a result.

The Major has asserted in interviews given to newspapermen in London that the Alberta government is not sincere in its plans to institute social credit, and yet Premier Aberhart has repeatedly urged Major Douglas to come here and establish his own system of social credit. The premier points out that what the government has done with regard to the past indebtedness of the province and its past financial problems has nothing whatever to do with the establishment of social credit and could in no way hinder the work of Major Douglas in advising the administration.

Up to the time of writing, Premier Aberhart had not received any reply to his latest cablegram to Major Douglas, and the present status of the controversy seems to be that the Major is not going to come to Alberta, at least not for some time, and that unless another competent adviser can be found to take his place, Premier Aberhart will take the initiative himself and go ahead with the plan without advice from

any other social credit source.

There is a growing body of his followers who favor such action by the premier, and the members of the legislature are said to be solidly behind the premier in whatever step he may decide to adopt. There is no question as to the premier's ability.

Premier Aberhart stated after the party caucus Thursday night that the Social Credit members were anxious that Major Douglas and all social crediters all over the world should know that the Alberta government is anxious to have the Major come here and advise the government, and that nothing whatever will be done to hinder him from instituting his own plan for the province.

In the meantime the provincial budget passed by the assembly, following defeat of G. Van Allen's non-confidence motion, will stand, despite Major Douglas' demand that only an interim budget be passed. The Major was given to understand that Social Crediters in the legislature considered it his duty to come and implement his own proposals for the province.

Premier Aberhart, Friday, denied emphatically a statement made by a Toronto writer that he had gone east last autumn in order to ask the bankers to help him in putting social credit into effect. He also said it was possible that a bill will be introduced during the present session to make it compulsory to accept reduced interest rates in refunding of the province's \$160,000,000 debt. But it is probable it may not be possible to introduce this bill until the session resumes after an adjournment to enable the cabinet to make refunding arrangements if possible in the east.

Estimates amounting to \$14,536,961 were passed by the legislature for expenditures during the 1936-37 fiscal year. There are still some estimates to be disposed of, but they will likely be cleared away early in the week. Confronted by protests of Liberal members the bill to provide relief for necessitous farmers was passed by an overwhelming majority and given third reading on Friday. Liberals opposed it on the grounds that it might endanger provincial credit by giving priority to more charges of first mortgages on land.

Strong appeals for more bridges and roads in the north country came from both government and opposition sides Thursday. W. J. Lamprey, Peace River S.C. member and A. L. Giroux, Grouard Liberal, championed the needs of the north. Power equipment for ferries was also urged for the Peace River district.

It is now likely the house may adjourn to reassemble in the fall or late summer.

If You Eat Starches Meats, Sweets Read This

They're All Necessary Foods — But All Acid-Forming. Hence Most of Us Have "Acid Stomach" At Times. Easy Now to Relieve.

Doctors say that much of the so-called "indigestion," from which so many of us suffer, is really acid indigestion . . . brought about by too many acid-forming foods in our modern diet. And that there is now a way to relieve this . . . often in minutes!

Simply take Phillips' Milk of Magnesia after meals. Almost immediately this acts to neutralize the stomach acidity that brings on your trouble. You "forget you have a stomach!"

Try this just once! Take either the familiar liquid "PHILLIPS" or, now the convenient new Phillips' Milk of Magnesia Tablets. But be sure you get Genuine "PHILLIPS".

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

PHILLIPS'
Milk of Magnesia
MADE IN CANADA

WORLD HAPPENINGS BRIEFLY TOLD

Dr. James H. Scurr, 69, who helped map Lindbergh's flight across the Atlantic in 1927, died recently in New York.

The Dominion government has loaned the province of British Columbia \$4,300,000 accepting a four per cent. treasury bill for one year as security for the loan.

A colony of wild bees was discovered in a hollow tree by Howard Woodley near Waterford, Ont. They had a store of honey which extended 11 feet and was estimated to contain 125 pounds of the sweet syrup.

An order for 134,000 pieces of glass and china, including 7,500 tea and coffee pots has been placed with a Liverpool firm for the liner "Queen Mary".

Alberta's first step to join other provinces in uniform legislation concerning life insurance is provided for in a bill containing 40 amendments to the Insurance Act, 1926, which received second reading in the legislature.

The Duke of York was promoted to higher ranks in all three defence services. The duke, now heir presumptive to the throne, was made an admiral of the fleet, a general of the army and air chief marshal in the Royal Air Force.

Albert E. Cahan, editor of the Picton Gazette, a weekly newspaper, died at his home after an illness of several weeks. He was a past president of the Canadian Weekly Newspaper Association.

Prehistoric Dragon Fly

Wing Of Thirty-Inch Specimen Found In Kansas

A remnant of one of the world's largest insects, a prehistoric dragon fly about 2½ feet long, was discovered in the limestone beds near Elmo, Kansas, by Dr. Frank M. Carpenter, of Harvard University museum of comparative zoology.

Only a part of one wing of the giant insect was found, but there was sufficient of this to accurately estimate the size of the entire specimen. Many other insects of this same family have been found previously in other parts of the world, so it was not difficult for Dr. Carpenter to estimate the size from the portions of the wing.

The giant insect was a member of a group known as Protodonata and lived in the Permian Age about 150,000,000 years ago. Insects of this type, with long thin bodies and thin wings, were the most powerful that ever lived and masters of the air in their time, scientists agree.

They were among the swiftest of insects and because of their great strength could cover great distances in one flight. They lived off smaller insects, as no birds or mammals lived in that age.

More than 8,000 prehistoric insects have been found by Harvard expeditions in these same limestone beds in Kansas, where they are unusually well preserved.

The only other insect ever found approaching the size of this specimen was uncovered in northern France about 50 years ago.

"Go West, Young Man"

New Novel, Recently Published, Should Make Strong Appeal To Western Readers

There have been few good novels about the kind of Canadians who comprise seventy per cent. of the population—the farm and rural people and the mass of "shirt-sleeve" city workers.

Such books as have been written have been mostly about farm life, although real farmers often have some difficulty in recognizing themselves!

So rural readers will give a warm welcome to "Go West, Young Man", a new novel by Bernard J. Farmer, which Thomas Nelson & Sons of Toronto have just published. For it shows accurately, excitingly, and yet poignantly, the experiences of a young man, fresh from the Old Country, tossed into the whirlpool of "unskilled labour" on which Canada's impressive cities float.

Western readers will find it enlightening to get at first hand—embodied in a vividly written and exciting novel—the shift by which unskilled workers live. The hero of "Go West, Young Man" labours on railway section crews, sells silk stockings from door to door in Winnipeg, works on construction gangs in Manitoba, and mines in Northern Ontario. He often starves but never whines, is often down but never out, and in the end achieves contentment in a modest job—with a modest, contented wife beside him.

The fact that so many incidents come from the personal experience of the author adds immensely to the book's value.

To Aid Night Driving

Reflector Buttons Said To Define Shoulder Of Road

Ever have trouble keeping an eye on the edge of the road when an approaching automobile throws its headlights into your eyes? You wouldn't if driving along the Berlin Turnpike alongside Mount Lamentation.

The Connecticut state highway department has granted permission for R. O. Smith, New Haven insurance agent, to test his idea. It consists of small metal posts, set 120 feet apart, each with ten reflector buttons which throw back the lights of an approaching car and clearly define the shoulder of the road.

More Canned Fruit Imported

Imports of canned and preserved fruits into Canada in December were valued at \$101,663, almost double that of a year ago. The largest item was in pineapple from the Straits Settlements and Australia.

The moose can grow 78-inch antlers in three months. 2159

India Rebuilding City

Quetta, Scene Of Disastrous Earthquake, To Be Restored

After the catastrophe earthquake in Quetta last year it was announced that the site of the city would be abandoned and the dead be allowed to find permanent graves in the ruins. Nearly thirty thousand persons were buried alive. Now the government of India has decided to rebuild Quetta at a cost of 30 million dollars.

The government probably is as much influenced by military considerations as by other factors. A garrison located at that point could defend India from western aggression and maintain order in the northwestern provinces. The city has the most feasible if not the only favorable site in the district for an aerodrome. Debris from the ruins could be used to fill in unhealthy, mosquito-breeding, low spots in the neighborhood.

The new city will be laid out by a town planning expert. Earthquake-resisting buildings will be built for all permanent government employees. Streets will be made wider and if the civil population returns they must expect a higher cost of living.—Toronto Star Weekly.

Restores Sight

Simple Injection In The Arm Proves Successful In Some Cases

A simple injection in the arm has proved successful in restoring the sight, at least in part, of persons blinded by trachoma or corneal opacity, the New York Academy of Medicine was told.

The new method, presented by four eye specialists who had been testing it for three months in New York eye clinics, consists of an injection into the muscles of the arms or other parts of the body of a simple chemical, benzyl cinnamic ether, dissolved in olive oil.

The treatment was discovered by Dr. Jacob Jacobson, of Paris.

EVERYBODY LIKES Christie's Lorna Doone SHORTBREAD

Here's shortcake that rivals the finest you ever tasted. Baked to a light, tempting, delicious perfection from the finest and purest ingredients, Christie's Lorna Doone Shortcake is indeed a fresh delight. Buy it and try it today. All the family will like it and your guests will like it too.

Asiatic Explorers Bring Collection Of Flora And Fauna From Tibet

Two Asiatic explorers are en route east with their collection of flora and fauna made in a recently completed two-year expedition into the one-time forbidden country of Tibet.

D. Dolan, explorer and research worker of the Philadelphia Academy of Natural Sciences, and E. L. C. Schafer, scientist of the Berlin zoological gardens, left Vancouver for Chicago and Philadelphia. They were travelling via Calgary and Winnipeg.

Among the specimens they brought back are those of the wild yak and a full series of a large deer similar to the North American wapiti.

At present there is only one specimen of the yak, in Leningrad museum, and one of the deer species, in the British museum.

In the office women do what men want done. In the home men do what women want done.

A Remarkable Machine

Photo-Electrilathe Has Been Invented By Russian Engineer

A new photo-electrilathe which can work to a complicated design without human aid has been invented by a Russian engineer, V. S. Vichman, who works at the Moscow Institute of Machine Tools and Instruments.

With the aid of a photo-electric cell the lathe can "see" any drawings that are placed in it. Then, it is claimed, the shaping instruments are automatically adjusted.

Vichman's lathe has been adopted by the institute, which is now manufacturing others of similar design for use in industry.

Handsome Chair Set or Scarf Ends

Household Arts by Alice Brooks

Filet Crochet—Fun To Do—Popular To Use

PATTERN 5520

No matter what your period or style of furniture, a handsome chair set of filet crochet is always in keeping—always easy to make, too, in this decorative peacock design set off by the K stitch and using just humble string. A beginner? You'll find the clearest directions imaginable with your pattern, which insures success from the very start. A buffet set or scarf ends may also be crocheted with this design.

In pattern 5520 you will find complete instructions and charts for making the filet shown; an illustration of it and of all the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

There is no Alice Brooks pattern book published

A man could lift 240,000 pounds if he were as strong as an ant in proportion to size.

MISERABLE? WEAK?

NO need for girls or women to suffer from periodic pains, headache or sideache. Many find that Dr. Pierce's Favorite Prescription is a very beneficial tonic. This is what Mrs. Lillian Bates, of 42 Myrtle Ave., Welland, Ont., said: "I felt so weak and rundown before I used Dr. Pierce's Favorite Prescription. I had to force myself to eat, and my stomach would become upset so often. But this tonic put an end to these complaints for after I used it I felt just as good as could be."

Buy at your druggist now! New size, tablets 50 cts. Large size, tabs. or liquid, \$1.35. Write to Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

FLEMING'S FOLLY

— BY —
LAWRENCE A. KEATING

CHAPTER VII.—Continued

He avoided her glowing eyes. "I don't know if we could raise the money. And suppose somebody hurt you? I'd never forgive myself!"

The visitor cleared his throat. But she turned on him, drawing herself to full height. "Mr. Berrens, your offer is not acceptable because Link—Mr. Fleming—has already agreed to build the dam. He has made a contract."

"A contract?"

She eyed Berrens a moment, then slowly turned back to Link. "You gave your word. Isn't that as good as anything written?"

"Sure it is. But..."

"Your word to join me in building the dam. What if we do have to wait till Spring?" she burst out. "You and I talked about this in letters before I came home. We determined to build a dam to prove irrigation will work. Well, you and I became partners. And I won't let you draw out of that, or sell to some company that will do the very thing you want to do to Silver Creek. No sir!" Helen cried, and stamped a small foot to the floor until her spur jingled like the clink of silver in a bag. "We're partners, and partners we stay!"

He raised himself on his elbow. Berrens started to say something but Link's sharp gesture stopped him. There was a new, strange light in his eyes that had not been there before. Despite the shining grease that covered his face, and the total lack of eyelashes or eyebrows, enthusiasm and something deeper, more lasting, dawned in his look.

"Say! I'd sure like to be partners with you a long time after we build..."

His words were drowned in a crash. Dumfounded, youth and girl swung to view the bunkhouse window that had been shattered by G. I. V. Berrens' hurtling body. At sound of running steps that entered the bunkhouse, and a stentorian voice that boomed at them, they swung back startled.

"Link!" bawled Sheriff Ames Stephen as he poised, sgun in hand. "I'm after the gent that bought dynamite at Sam Pickett's store yesterday. Yeah, an' a Winchester and slugs too. Gold teeth in his face; short, wears a coat like a hoss blanket. I bet he's the hombre shot Torney and mebbe salted yore stove! Where'd he go?"

Seconds ticked away before they comprehended. Fleming crawled painfully out of his bunk to stand swaying dizzily. "The window, Sheriff! And—gosh, get him! I'm depending on you, Ames! Get the lobo, 'cause we sure don't want him loose when we build that dam!"

CHAPTER VIII.

Three men who leaned indolently against the sheetiron front of Sam Pickett's general store in Rawhide exchanged significant, knowing looks. By common consent they returned their eyes roadward to watch two riders whose mounts trudged with lowered heads through the furry dust of Main Street.

One lank, stubble-chinned loafer fumbled for a match to relight his pipe. "Firm o' Hamilton & Fleming's come to town, boys."

A companion shifted his chew and spat into the street. "Can't be they're lackin' money again?" he questioned sarcastically. "Link started out like he'd corraled all the dough in the state. Anyhow, he must've figgered he had enough to throw away a fortune on the engineeerin' marvel o' the Goldarn West!"

They chuckled at this wit, their derision carrying plainly to the tall, square shouldered rider. Annoyance flitted across Link's weather browned countenance, and he glanced quickly at his companion. But the quiet smile from the shadow of her Stetson's frayed brim was reassuring, tolerant. They ignored the loafers and rode on, at length turning their mounts toward the hitchrail before the one-story clapboard structure whose broad front window was let-

tered, "Stockmen's Bank of Rawhide."

The easy grace with which Helen Hamilton slid from her saddle did not escape Fleming's admiring gaze, nor the movement of her willowy figure as she stooped under the rack and straightened on the plank sidewalk. In buckskin divided skirt, worn but carefully blacked boots with little spurs jingling as she walked, peaked Stetson, and a pongee blouse, she presented a picture which more than one man in Boone County was prone to view with keen appreciation.

Link dismounted and fastened his horse's reins as she had already fastened those of her pinto. Helen had paused at the window of Irv Lane's jewelry store, and he moved to her side. His interested eyes sought the objects of her attention, several diamond solitaire rings priced from one hundred to five hundred dollars in front of which rested a card, "Special 20% Off."

Thrusting one hand into his trousers pockets, Link worked a ten and four-one dollar bills into a pulpy ball. Hesitantly he indicated a ring whose stone flashed brilliant red and blue darts more vivid than those of its competitors. "That's a nice lookin' one."

She cocked her head to calculate the ring's effectiveness. "Yes. It's the very nicest there."

In the silence that ensued Link's eyes roved the window display downward to Helen's slender, capable left hand at her side. There was a look of sober reflection on his boyish face as he shifted weight. Unexpectedly their eyes met, but fluttered down with instant embarrassment. Fleming's sinewy nut-brown fingers brushed the money in his pocket into a harder, smaller sphere.

"That ring'd shore look nice on yore hand," he ventured. "I mean, it wouldn't be half good enough, but it'd look..." He checked himself. "Well," Link shrugged, "when our dam begins to make alfalfa and stuff grow in that wasteland, maybe Irv Lane'll make a sale." He hesitated, summoning courage. "Would you be pleased?"

Helen tucked a wisp of chestnut hair under her Stetson. Her eyes met his, but sought again the display of jewelry while her cheeks colored swiftly. "I didn't know you felt—I mean, you never said you wanted..."

"Say, it must stick out all over

Mothers Approve Guide to Better Control of Colds

Simple Plan Helps Them to Gain Greater Freedom from Colds for Their Families

EASY TO FOLLOW IN THE HOME

Mothers throughout Canada are now helping their families to have fewer, milder and shorter colds—by following the famous Vicks Plan for Better Control of Colds.

Developed especially for mothers, this practical Plan represents the 30 years' experience of Vicks Chemists and Medical Consultants in studying colds. It has been tested in extensive clinics by practicing physicians—further proved in everyday home use from coast to coast.

Here, briefly, are its three simple steps:

1. To Help Build Resistance to Colds Live normally—avoid excesses. Eat simple food and keep elimination regular. Drink plenty of water. Take some exercise daily—outdoors preferably. Get plenty of rest and sleep.

2. To Help Prevent Many Colds At the first warning nasal irritation, sniffle or sneeze, use Vicks Va-tro-nol—just a few drops up each nostril. Va-tro-nol is especially designed for the nose and upper throat—where most colds start. Used in time, Va-tro-nol helps to prevent many colds—and to throw off head colds in the early stages.

3. To Help End a Cold Sooner If a cold has developed, or strikes without warning, rub throat and chest at bedtime with Vicks VapoRub. VapoRub acts two ways at once: (1) By stimulation through the skin, like a poultice or plaster; (2) By inhalation of its penetrating medicated vapors, direct to inflamed air-passages. Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

What Vicks Plan can do for you and your family can be proved only by trying it. You'll find full direction for following the Plan in any package of Vicks Va-tro-nol or Vicks VapoRub.

2 Things to Do TO EASE COLD INSTANTLY

Discomfort and Ache Go Almost Instantly This Way

1. Take two "Aspirin" Tablets. Make sure you get "Aspirin."

Instead of taxing your system with strong medicines for a cold, try the way pictured above—the modern, easy way. Your own doctor will approve it. And it takes hold of even a bad cold almost immediately. The "Aspirin" you take will start combating your cold internally at once; if throat is sore, crush and stir 3 "Aspirin" Tablets in a third

2. Drink a full glass of water. Repeat treatment in 2 hours.

of a glass of water; gargle twice. Do not rinse mouth. "Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

DEMAND AND GET "ASPIRIN"

me. But I reckon," he added in quick contrition, "I got no right to bring this up until our dam gets finished and we've paid our debts and folks quit sneerin' about Fleming's Folly. Then," he declared, his handsome face softening, "I'll be ridin' over to your Triple H some fine moonlight night. If I can work up the nerve. To ask a sort of—a sort of important question."

There was a momentary silence. "I hope everything works out all right, Link. If the Triple H becomes prosperous I want to hire a lawyer to try to persuade the Governor to pardon Buzz. Never a day passes but I think of him in that terrible place." A shudder made her shoulders quiver. "Wouldn't it be wonderful if I could somehow get him out of prison?"

Fleming gave her a sidelong glance. "Reckon it'd please you about as much as anything, wouldn't it? To have Buzz free, so he wouldn't have to serve the rest of his three years."

As boots sounded closer along the hollow sidewalk Link turned, his expression changing to slight displeasure. He nodded to Kilgo, whose round mottled face wore a grin ponderously genial.

"Spendin' yore dough before yuh got it, Helen?" He chuckled with tolerant comprehension of feminine vanities. "Wal, don't order a truck-load o' jewelry unless yuh charge it to somebody that don't throw away good hard cash backin' Silver Creek into a lake. 'Course," Roper winked, pausing with feed wide apart and thick thumbs hooked in the cart-ridge belt that supported his Colt. "I ain't sayin' I wouldn't be glad to foot the bill, at that."

"I wouldn't think of such a thing," she assured quickly.

He paused with an ironic look at Link. "How's the big dream progressin'? Or are yuh findin' out it's a nightmare?"

"Fine, thanks," Fleming rolled a cigarette and gazed with patent boredom down the street. "Helen, will you excuse me a minute? I want to speak to the sheriff."

She nodded. The owner of the Box 50 Ranch watched him stride away, then chuckled. "Touchy about the dam ain't he? But he'll be touchier when his hull cow-farm goes up in smoke, an' there's a stack o' bills a foot high starin' him in the face!"

"Link won't be alone in trouble," she reminded with quiet dignity.

Kilgo's florid face showed concern. "That's what I don't like." His heavy-lidded eyes noted the grace of her lithe figure. "Shore would hate to see yore spread busted, Helen. Looks to me like this is a scurvy trick to soak yuh half the cost of the dam."

The pressure of her cherry lips showed the girl trying to stifle impatience. "Why talk about it?" she asked wearily. "We've been over this a dozen times. It all comes down to whether one believes in irrigation. You don't, but I do."

"Yeah, but it kind of rubs me the wrong way. I mean, you don't have so much time for me any more. And you and I used to be..."

"Please, Roper."

He scowled. "But look here, Helen. I'm pretty fond of yuh. Always was. Guess you kind of like me too, eh?"

She saw Link and Sheriff Ames Stephen in earnest conversation, and seeking escape, turned on her heel.

"That reminds me, I must get a few things at Pickett's store."

(To Be Continued)

Little Helps For This Week

The cup which my Father has given me, shall I not drink it? John 18:11.

Every sorrow every smart,
That the Eternal Fathers' heart
Hath appointed me of yore,
Or hath yet for me in store,
As my life flows on, I'll take
Calmly, gladly, for His sake.

The very least and the very greatest sorrows that God suffers to befall His unspeakable love; and such great love were better for thee than the highest and best gifts He has given thee, or could ever give thee, if thou couldst but see it in this light? So if you are cold, if you are hungry or thirsty, or if others vex you by their words or deeds, or whatever happens to you that causes you distress or pain, it will all help to fit you for a nobler life.

Would Protect Animals

The Ottawa Humane Society, endorsing a like request of the British Columbia society for the prevention of cruelty to animals, decided to write the minister of justice to amend the protection of animals act, 1911, to make it possible to deny a dog license to any person found guilty of cruelty to dogs.

About the only book that has not yet been "movieized" is the dictionary.

Tailors of Spain have drawn up a "black list" of slow-payers.

Scotland's new national park will cover 100 square miles. 2139

Name _____ Address _____

SAMPLE COPY ON REQUEST

"It is a pity every British Columbia business man can not find it possible to visit the Far East, particularly Japan," said C. A. Cotterell, assistant general manager, British Columbia, for the Canadian Pacific Railway, just back from a trip to the Orient. Mr. Cotterell thought a visit would be an education, enlightening and of inestimable value in a practical sense.

Two prominent British residents in Kobe are fighting a losing battle against a careered pine tree which they fear is about to fall on their residence, according to passengers arriving in Victoria recently on the Empress of Japan. They can't get it felled because it is believed if that is done, a pestilence will strike the district.

"The Canadian Pacific's biggest liner, the 42,500-ton Empress of Britain, to be designated 'cabin' ship following the abolition of 'first class' designation by the North Atlantic Conference, will continue in operation as a high class, high speed, de luxe liner," William Baird, steamship passenger traffic manager of the Canadian Pacific, said recently.

At one end of the Dominion the Eastern International Dog Sled Derby at Quebec, Feb. 20-22 hit the high spots in winter sport and at the other end was the Empress Golf Tournament at Victoria, February 17-22, both sponsored by the Canadian Pacific Railway and each showing the versatility of the Canadian climate, since both were indubitably and entirely successful.

Skiing has reached unprecedented levels this winter with an average of 5,000 skiers taking week-end trips from Montreal to nearby mountain resorts all season and with similar figures available from all over the Dominion.

Evangelical Church Notes

The pastor will continue his series of sermons next Sunday morning on the Sins That Crucified Jesus, with the "Story of Caiaphas—the Sin of Religious Intolerance." In the evening the second of the series on Life's Crosses "Joseph and the Cross of Loneliness," will be given by the pastor.

At the annual meeting of the Al-bright Brotherhood the following officers were elected: President, J. V. Berscht; Vice President G. Dippel; Secretary R. J. Cunningham; Treasurer, Goldwin Gabel.

At the Movies.

Tonight, another epic picture, "Laddie," with John Beal, Gloria Stuart and Virginia Weidler, will be brought to the local screen. This is a high-class RKO production taken from one of the most famous stories from the pen of the late Gene Stratton-Porter.

Saturday there is a double bill, "Green Eyes," a high society mystery play, with Shirley Grey and Charles Starrett, and as second feature Barbara Kent and J. Farrell MacDonald in an adventurous Foreign Legion epic "Pride of the Legion."

Next Wednesday and Thursday Didsbury patrons will be introduced to a new starlette, Sybil Jason, the 5 year-old sensation, in "Little Big Shot."

"BUY IN DIDSBURY"

Burnside Notes.

The Lone Pine W. I. are holding a shadow social and dance in the Hall Friday evening, March 20.

The Baseball Club is busy rehearsing for a play which it expects to give early next month.

Miss Sadie McLean spent the weekend in Calgary.

Mrs. David Thoman, Samuel and Ruth, spent Saturday in Calgary.

Mr. Joe Rist and Bill Wulawka were Sunday visitors at the N. Eckel home.

Mr. Sam McAllister, we are sorry to say, is again in Didsbury taking medical treatment.

Mr. Clarence Cipperly who spent the winter in Calgary, returned home Thursday.

Mr. and Mrs. John Viney have moved to the George Cipperley place recently vacated by Charlie Morley, who is leaving for Drumheller.

Mrs. R. Bittner, Rosie and Ardella moved to Calgary last week where they will make their future home. Gus is staying with his brother, Otto.

Lone Pine W.I. met at the home of Mrs. Jenkins with a large attendance of members and visitors. Mrs. Jack Viney gave a splendid paper on Education & Better Schools. Mrs. C. R. Liesemer will have the meeting next month.

Melvin Notes.

Don't forget the dance at Melvin on March 27th.

The Go Getters are holding their annual business meeting on Monday evening, March 30. Everyone try and be present.

Bruce Swingle, of Calgary, spent the weekend with his father, Mr. Lee Swingle.

Miss Bessie Evans, Elkton, spent the weekend at the home of Mr. and Mrs. Charles Youngs.

Mrs. Landeen has gone to Faust, in the Peace River district, to help nurse her mother who has suffered a stroke.

WEEKLY JOKE

"Just think, children," said the missionary, "in Africa there are six million square miles where little boys and girls have no Sunday School. Now what should we all strive to save money for?"

To go to Africa," cried a chorus of cheery voices.

Things To Remember

St. Patrick's Supper Saturday, March 21 at Knox United Church 5:30 to 8 p.m. Admission 25 cents.

Didsbury U F A Local will meet at the home of W. J. Scheidt next Thursday, March 26 at 2 p.m. The delegates' convention reports will be received and regular business transacted.

"The Eyes of Love"—Comedy-Drama in 3 acts, to be presented by local players in the Opera House on Friday, March 27. Further announcements will follow.

Knox United Ladies Aid Easter Bazaar & Food Sale on Saturday, April 4, in the Leuszler Block.

One of the Three New Massey Harris Tractors will meet your tractor needs.

Large Shipment of Spring Suits, Coats, Dresses and Millinery at Mrs. Wilson's.

In Memoriam

REITZEL—In loving memory of Edward G. Reitzel, who passed away March 22nd, 1935:

The blow was great, the shock severe. We little thought his death so near. Only those who have lost can tell The sorrow of parting without farewell. He bade no one a last goodbye; He said farewell to none.

The heavenly voices were opened And a Heavenly Voice said, "Come." —Sadly missed by his loving wife and family.

LOCAL & GENERAL

Spring must be here—we hear the golfer talking.

Miss Elva McMow was a city visitor last weekend.

Mr. and Mrs. F. Dunlop were in Calgary last weekend.

Doug. Robertson, teller at the Royal Bank was a visitor in Calgary with his parents over weekend.

George Geiger has accepted a position at the Carstairs Creamery and will commence work April 1st.

For real value in work shirts buy one of our \$1.00 line.—T. E. Scott.

Mrs. Kendrick and daughter Bea spent the weekend with relatives in the southern city.

A. G. Studer and W. G. Liesemer made a business trip to Calgary on Tuesday.

The lucky number in the Hockey Club draw for a blanket was held by Mr. Chas. Mortimer.

Mac's Service Hardware is being brightened up for spring. Mac has also installed a new lighting system.

Archie Boyce will hold another Community Sale Saturday, April 4. Make your lineup with C. E. Reiber.

Dr. Clarke is driving a new Chev. sedan, taking delivery from Adshad Garage last weekend.

We have a full line of boy's good strong school shoes from T. E. Scott.

Mr. and Mrs. Ivan Weber attended the funeral of Mrs. Reuter, of the Carstairs Hotel, on Tuesday.

Mrs. Charles Wrightson, of Innisfail, visited relatives and friends here Tuesday.

W. W. Hunter, of Olds, shipped two carloads of cattle from Didsbury to St. Paul, Minn. on Wednesday.

Misses Lillian and Gertrude Kennedy, of Olds, spent the weekend with their sister, Mrs. Russell Berscht.

Dr. Clarke is attending the session of the Grand Chapter of Royal Arch Masons of Alberta in Edmonton this week. The doctor is Grand Supt.

See the Massey-Harris One-Way Disc Seeder. Its the only machine of this style that gives complete satisfaction.

The members of the Eastern Star Chapter will hold a tea at the home of Mrs. W. S. Durrer on Thursday, March 26.

We are pleased to hear that Mr. J. V. Berscht, who has been ill for the past month, is much improved and expects to be out again shortly.

Weekend Special—1 1/4 Inch 2-Ply Rawhide Halters Only 95c. First Quality Yellow & White Sweatpads all sizes—Only 50c at T. E. Scott's.

Al Thomas, Bob Eubank and Hy. Goehring attended the Luscar-Minto hockey game in Calgary on Saturday.

Mr. Chas. Mortimer has had on exhibit at Chambers' drug store a white Hungarian partridge. This bird was shot near Nevis, Alberta, and was at the time with a flock of regularly colored partridges.

Why not buy better shoes for less money and get them from T. E. Scott.

The finals of the curling schedule were played Monday evening, when McCloy won over McGhee 15-4 and Fisher beat Liesemer 11-10. Jack takes the ties and Bert the suspenders.

"Hi there, Pat, are you going to the St. Patrick's Supper on Saturday at Knox Church?" "Faith, 'n how much does it cost?" "Only 25 cents for any age." "Shure, an' I guess I'll be takin' the whole family then!"

What happens when the popular Delight Townsend offers to guarantee escorts for two of her less-popular friends for the rest of the term. And then becomes involved with that dark Spanish gentleman, Ramon Cortez, provides a charming evening's entertainment at the Elkton School this Friday, when the Elkton Players present, "The Spanish Onion." The proceeds are for the afternoon broadcast of the Prophetic Bible Institute and Radio Sunday School.

Try a pair of our \$2.75 men's dress oxfords.—T. E. Scott.
